DEBATE BLOCKS FINAL VOTE ON TWO MEASURES

Objection to Clause Giving More Credit to Farmers Delays Relief Bill

AMENDMENTS PROPOSED

Immigration Resolution Gets Good Working Over; Many Changes Are Planned

WASHINGTON, Dec. 11.—Final disposition in the house of the Johnson bill providing for practically complete stoppage of immigration for one year was postponed late today until Monday. House leaders reached an agreement to bring the bill to a vote on that day, having found it impossible to complete debate today.

An amendment to exempt farm laborers from exclusion under the bill and permit them to remain in the United States as long as they engaged in agricultural pursuits, was defeated.

"Natural brothers and sisters under 21" of American citizens would be admitted under an amendment adopted.

When the house adjourned, debate under the special rule had expired. Demands for separate roll calls on amendments were pending, however, and these went over until Monday.

One amendment today broadened restrictions on relatives to include brothers and sisters, not more than 21 and 16, respectively, who would be admitted on application to the secretary of labor by an American citizen.

An amendment by Representative Parrish, Democrat of Texas, authorizing the secretary of labor to fix the length of time Mexican farm laborers could remain in the United States was defeated, 29 to 22.

Senate Also Debates
WASHINGTON, Dec. 11.—Debate prevented a vote in the senate today on the joint resolution directing revocation of the war finance corporation as a relief measure for farmers. recess was taken until noon Monday with an informal understanding that a vote would be taken not later than 3 p. m.

Objection to that section of the resolution directing that the federal reserve board provide more liberal credits for farmers marked the debate. Senator Smith, Republican of Utah, gave notice he would move to strike out the section and Senator Thomas, Democrat of Colorado, said he would ask for a separate vote.

Senator Pomeroy, Democrat of Ohio, said he would not "help wreck the federal reserve board," and Senator Glass, Democrat, Virginia, declared that section was a direct and unjust criticism of the board and not based on facts.

Senator Gronna, Republican of North Dakota, in charge of the resolution, directed criticism of the board was implied.

The offer to postpone action until Monday was made by Senator Gronna at the close of a speech by Senator Thomas.

"Everybody understood there would be a vote today," Senator Norris, Republican, Nebraska, asserted, but Senator Thomas replied he was "ignorant" of any such understanding.

Senator Spencer, Republican of Missouri, offered during the day a substitute in the form of a concurrent resolution which would declare the sense of congress to be that the war finance corporation should be revived and asking the federal reserve board to cooperate with it.

AGAINST BLUE SUNDAY

NEW YORK, Dec. 11.—The Motion Picture Theatrical Association today made public a telegram from Governor Smith expressing opposition to any movement which would forbid "wholesome amusement" on Sunday.

AMERICAN KIDDIES HELP

WASHINGTON, Dec. 11.—American children have prepared 78,000 Christmas bags for distribution among suffering children of Vienna and Budapest, it was announced today by the American Red Cross.

Japan Will Not Reduce Armament As Long As America Is Increasing, Viscount Ishii Informs Assembly

Question of Discarding War Equipment of World Powers Is Subject of Discussion at Geneva; Delegates Agree Program Will Be Long and Difficult One

GENEVA, Dec. 11.—(By the Associated Press)—World disarmament must be a slow and gradual process, the league of nations assembly commission, which has been deliberating on the question more than three weeks, decided today. Opinions of leading members are that neither the political situation nor public opinion is yet ready for full realization of that object.

In fact, even beginning reduction of armaments is not considered possible by the commission at present. Accordingly, the program to be presented to the assembly is to proceed in three stages. The first involves an agreement between the powers to make no further increase in armament. The second will provide a gradual reduction on a basis to be laid down by the armament commission. The third will provide for general and complete disarmament when it may be found that the situation permits it.

Viscount Ishii, has improved the occasion to give notice that Japan can not reduce her armament while the United States increases hers. One conspicuous fact is the necessity of propaganda to prepare the world for a radical solution of the question.

Members Appointed
The covenant again gave rise to a long and confused debate in the assembly this afternoon. The question was how to choose the four elected members of the council. The committee, which decided the most important point by only one majority, after a long discussion proposed that the terms of these members be limited to two years and that members shall be eligible for reelection for two years more, then ineligible for reelection the succeeding four years. This provision is intended to facilitate access to the council to all members of the league.

Another provision which was more stoutly contested apportioned members among the different continents, Europe and the Americas getting three and Asia one. The provision is held contrary to the covenant which provides that the assembly provide shall "freely" choose the members of the council, while apportionment would tie the hands of the next assembly.

New Dispute Arises
GENEVA, Dec. 11.—(By the Associated Press)—A dispute between

WORST IS OVER DECLARES BIG FINANCIER

Baruch Tells Dollar-a-Year Men That Pessimism Is Out of Order Now

WASHINGTON, Dec. 11.—More than a hundred of the men who served the government at a dollar a year during the war returned today for their second annual reunion. Confidence and optimism was going forward satisfactorily.

Former members of the war industries board met to organize a permanent society, purely, leaders said to perpetuate wartime friendships. At the same time, however, the opinion was expressed that informal discussion would lead to a broader understanding of business problems.

Daniel Willard, president of the Baltimore and Ohio Railroad declared the reasons were obvious why this country should soon be on a normal forward moving basis. Everything the nation has to have is found within its borders, he said, and it's railroads had felt to recession in business and foresaw none.

A similar expression came from Alexander Legg, general manager of the International Harvester company. He said he was concerned about the decline in farm commodities but believed that relief would come soon although it would be gradual.

"It will come," he continued, "through a broadening of the produce markets."

B. M. Baruch, former chairman of the war industries board, asserted there was "nothing to prevent the country from experiencing prosperity." He warned against "too much pessimism," saying that the worst of the troubles were over and that the pessimistic tone should not be overdone.

J. L. Replogle, who was director of the steel supplies for the war industries board, predicted brighter and better business conditions in April and May.

Chile and Bolivia in the league of nations assembly today has raised the possibility of the withdrawal of one country or the other from the league. The dispute arose over the submission to the assembly of the Tacna-Arica case which involves these northern provinces of Chile, taken by Chile from Peru in the war between these nations nearly 40 years ago, in which Bolivia also was involved, and the Peruvian and Bolivian claims concerning them.

The Tacna and Arica case was submitted to the assembly at the beginning of its session and soon reached an acute stage involving Chile and Bolivia in a serious dispute.

Chile renewed her opposition to the assembly hearing the case while Bolivia insisted on an immediate inquiry. The Chilean delegates threaten drastic action should the steering committee decide to hear the case in the present assembly and the withdrawal of either country is considered a possibility.

WOMAN SOUGHT IN HAMON CASE AGAIN 'FOUND'

Ardmore Man Says Clara Smith Was in Kansas 3 Days After Shooting

ATCHISON, Kan., Dec. 11.—Clara Smith, wanted at Ardmore, Okla., on a charge of murder following the death of Jake L. Hamon spent an evening in Atchison three days after the shooting, according to a statement made tonight by Harry McAleer, who came here two months ago from Ardmore.

"Clara Smith spent the evening with me in Atchison," he said "at the time she was supposed to be speeding through Texas in a motor car. She said she was driving north instead of south from Ardmore and had gone to Omaha, stopping here on her way to Kansas City where she expected to receive aid from friends."

"She did not tell me she had shot Jake Hamon but she was very nervous. She told me she was broke and I loaned her \$10 so she could get to Kansas City. I took her to dinner and then to a hotel where she registered. That was the last I saw of her. Two days later I received a letter from Kansas City containing the \$10 I had loaned her."

Search for Clara Smith Is Still Without Result; 'Hot Trail' Is Now Cold

ARDMORE, Okla., Dec. 11.—The whereabouts of Clara Barton Smith, charged with murder in connection with the death of Jake L. Hamon, remained as much a mystery tonight as during the 20 days she has been sought, according to officers here.

"The hot trail," which she was reported to have taken from an unnamed Mexican town through El Paso to Fort Worth, where she was expected to confer with attorneys yesterday in regard to the Hamon shooting, seems to have become cold. Russell R. Brown, county attorney, said tonight.

Brown said he had no information on which he could place confidence as to her whereabouts. He said the latest news he had received was the report of her brief stop in Cisco, Texas, several days ago.

AMERICAN CREW SAFE

BILBOA, Spain, Dec. 11.—The steamer Miguel Scrolla arrived here today with the crew of the American schooner Sylla. The men were rescued in a starving condition in mid-Atlantic, where the schooner had been dismantled in a storm.

TRAINMEN TO MEET

HOUSTON, Texas, Dec. 11.—Representatives of the Brotherhood of Railway Trainmen and of the Order of Railway Conductors on the Southern Pacific lines were in conference today to discuss with railway officials questions touching on jurisdiction of the two organizations.

MEXICAN RUNS AMUCK

GEORGETOWN, Texas, Dec. 11.—A Mexican named "Sisague" who ran amuck in a Missouri, Kansas and Texas Railway passenger coach near Granger, Texas, yesterday, and killed one man, and seriously injured two others, today was charged with murder.

BIG CORPORATION TO AID TRADE IS ORGANIZED

Plan Launched at Chicago to Stimulate Business of U. S. Is Now Fact

BANKERS PLEDGE HELP

Huge Undertaking Expected to Result in Vast Gain in Foreign Credits

CHICAGO, Dec. 11.—The Foreign Trade Financing Corporation, with plans for a capital of \$100,000,000 and a potential capacity of carrying \$1,000,000,000 of business on its books, was launched today for the announced purpose of stabilizing American foreign trade.

More than 200 bankers were sponsors for the organization, which, it was announced, probably would be ready to begin work shortly after January 1.

While the corporation was launched today, its organization will not be completed for another 10 days when a special committee of nine, appointed today by the organizing committee of 30, will meet in New York to elect officers, choose a board of directors and outline the first active steps to be taken. In the meantime, the committee will begin taking subscriptions so that the legal proceedings incident to organization may be rushed through and active work begun. The committee of nine will be headed by John McHugh, New York chairman of the marine and commerce committee of the American Bankers' Association.

McHugh, it was announced, probably will be chosen chairman of the board of directors. He was offered the presidency of the corporation by the committee of 30 today, according to several members, but declined.

\$600,000 Already In

Hope that the corporation would not be limited to representatives of capital was expressed by Richard Hawes of St. Louis, retiring president of the American Bankers' Association, in an address.

"Many labor unions have large surplus funds which could be made to bring good financial returns through this corporation," he said, "and we strongly urge them to join us."

The first subscription was made by the Illinois Manufacturers' Association, which pledged \$500,000 with the announcement it would double that amount if necessary. Those present personally subscribed \$100,000 to be used in defraying organization expenses.

The corporation will be organized under the Edge act which provides establishment of corporations which may receive foreign securities and issue debentures against them to an amount not to exceed ten times their capital, thus giving the \$100,000,000 corporation power to finance \$1,000,000,000 in foreign trade.

Texas Also Active

HOUSTON, Texas, Dec. 11.—Organization of a Texas cotton growers' sale agency, destined to arrange for the marketing of low grade cotton Texas in Germany, was affected at a meeting today. Officers were elected.

AUTOISTS ARGUE, ONE IS KILLED

Edward Herwitz of Phoenix Dies From Shot Fired Following Heated Discussion

PHOENIX, Dec. 11.—Edward Herwitz, 31 years old, died this evening after having been shot early today through the abdomen in an altercation at a house in the northern outskirts of Phoenix. Bert Heed was taken into custody and was said by the county attorney's office to have declared the shooting was accidental. Herwitz died, refusing to make a statement. Ethel Finley, sister-in-law of Heed, was said by the county officials to have told them Heed shot Herwitz and that the two had fought with their fists earlier in the evening over the bumping of Herwitz's automobile by Heed's car, as a result of which Miss Finley's hat had been knocked off into a mud puddle. Heed was being held tonight on a coroner's warrant, pending an inquest Monday.

According to the story related to officials of the county attorney's office, Herwitz and Mrs. and Miss Finley, in one automobile and Mr. and Mrs. Heed, and a friend named George Holmes in another had been spending the evening driving in and about Phoenix and that they stopped at a garage to fill the radiators with water. It was there, Miss Finley was quoted as saying, that the cars bumped the hat went into the mud and the men fought.

While the conflict was in progress she said, she and Mrs. Heed took Herwitz's car and drove to the Finley home near the Indian school. Herwitz and Heed finally stopped fighting, she said, and they and Holmes drove out in Heed's car.

Arriving there, she said, the altercation was resumed, both men presenting their versions to the parents of Miss Finley and Mrs. Heed. The argument grew more heated, she said, until Heed suddenly drew a pistol and fired. Herwitz falling as the bullet pierced him.

League Soldiers To Supervise Vilna Vote

WARSAW, Dec. 9.—The league of nations international army to supervise the plebiscite at Vilna will probably establish its base at Memel, which is under the league's control. Troops and supplies could be landed there without touching Prussian territory. An army of 2000 from Sweden, Spain, Denmark, Belgium, France and England probably will march into Vilna in January ready for the plebiscite, which will be held in February. Holland will probably have a contingent but the participation of Norway and Italy are considered uncertain.

Colonel Chardigny, commanding the league's army, will establish headquarters at Vilna. The army's flag will be a blue square with a white field in the left hand corner bearing a red swastika in the center. The forces under General Zeligowski will begin withdrawing when the international army arrives.

BOMB PLANT IS DISCOVERED IN DUBLIN RAID

Military Authorities Unearth Infernal Machine Factory In Heart of City

DUBLIN, Dec. 11.—A plant for the manufacture of bombs was discovered during an early morning raid on a bicycle repair shop in Parnell street, in the center of Dublin.

Large quantities of arms, ammunition, bombs and gelignite were seized. Three men were arrested, one of whom was shot and wounded while attempting to escape.

Dublin castle's account of the raid described the factory as equipped with furnaces and machinery of a modern character. No workers were there, but the moulds still were warm. Two hundred bombs in various stages of manufacture were found.

Loaded revolvers were on the benches, presumably for the use of the workers. It is estimated the factory could turn out hundreds of bombs monthly.

A particularly sinister discovery was the incomplete portion of an infernal machine which showed it was to have been about the size of an ordinary typewriter.

Accommodations at the plant were rather cramped for the ten workers who, it is understood, were employed. The plant was in a very populous district.

GLENDALE STATE BANK IS CLOSED

PHOENIX, Dec. 11.—The Glendale State Bank at Glendale, 10 miles northwest of here, was closed today. Jesse L. Boyce, supervisor of state banks, said the closing probably would be only temporary. He added that partial examination of the bank's books had shown them to be satisfactory. The Glendale farming district had produced a large crop of long staple cotton, for which the present market was described as "feeble."

113 ARE LAID OFF

NEEDLES, Calif., Dec. 11.—One hundred and thirteen men, including machinists and helpers, blacksmiths and helpers and laborers were dropped from the employ of the Santa Fe shops here today.

JUDGE DINSMORE DIES

GREENVILLE, Texas, Dec. 11.—Judge J. H. Dinsmore, 67, consul to Cuba under President Grover Cleveland, died of heart failure at his home here last night.

nix and that they stopped at a garage to fill the radiators with water. It was there, Miss Finley was quoted as saying, that the cars bumped the hat went into the mud and the men fought.

While the conflict was in progress she said, she and Mrs. Heed took Herwitz's car and drove to the Finley home near the Indian school. Herwitz and Heed finally stopped fighting, she said, and they and Holmes drove out in Heed's car.

Arriving there, she said, the altercation was resumed, both men presenting their versions to the parents of Miss Finley and Mrs. Heed. The argument grew more heated, she said, until Heed suddenly drew a pistol and fired. Herwitz falling as the bullet pierced him.

AMERICA WILL BENEFIT FROM PRESENT SLUMP

—Schwab

Steel Magnate Says Country Is Going Through Natural Transition

PLEADS FOR ECONOMY

Declares Nation Is Getting Rid of Its Business Impurities at Last

NEW YORK, Dec. 11.—The existing slump in business is only the natural transition of industries returning to a normal basis from the speeding up of production made necessary by the war, declared Charles M. Schwab, chairman of the board of directors of the Bethlehem Steel Corporation, in an address tonight.

"I want to go on record," he said, "as saying nothing could be healthier for American business than the conditions through which we are now passing. The more severe the storm now, the quicker it will be over and the sooner we can emerge into clear weather and shape our course."

Commenting on the status of the unemployed labor, Schwab said, "that the great need of the world is to work hard and save." This, he said, applies to men of means as well as working men.

Foreign trade depends on the power of business men to think "internationally," he said in advocating the plan of trusting in the good faith and productive power of Europe by sending raw material and accepting in payment securities representing their producing activities.

"Never in our lifetime," he said, "have the shelves of the world been so bare. Our export trade hands by a slender thread. We are rapidly getting into a position where the world owes us money and yet cannot pay it."

"We are getting relieved of the impurities in our business life. The process is not complete yet. But the patient will in time be cured and when he is cured, the great body of American business will emerge with a vigor and energy the world has never known before."

Schwab made a plea for economy in government, demanding "the same degree of efficiency in government as we require in private business."

ANOTHER ROOSEVELT

NEW YORK, Dec. 11.—The twelfth grandchild of the late Theodore Roosevelt, a girl, was born today to Mrs. Richard Derby, younger daughter of the former president.

SCRUB WOMEN GET RAISE

BOSTON, Dec. 11.—A self supporting scrub woman needs \$15.40 a week to maintain herself, the minimum wage board on office and building cleaners announced today in making an award of a 25 per cent increase in their rates of pay.

(CONTINUED ON PAGE TWO)

HARDING WILL CONSULT WITH BRYAN FRIDAY

Root and Hoover Will Also Discuss League Plans During the Week

EXPECT 100 VISITORS

President-elect Determined to Get Views of Many Important Leaders

MARION, Ohio, Dec. 11.—As he continued his consultations today on an association of nations President-elect Harding let it be known that he expected to seek opinions of more than a hundred men and women before inauguration day and that his conference during the coming week would include some of the most notable figures in both political parties.

W. J. Bryan, Elihu Root and Herbert Hoover are among those he will consult virtually at the outset of his effort to find a middle ground on which divergent schools of national thought may unite. He said tonight he wanted no element of the recent league fight left out and was equally anxious to hear any new plan of international concert which might seem practicable.

Hoover is to be here tomorrow, Root Monday and Bryan Friday. From each Harding expects to gather much of an informative nature as well as much advice on the practical problems of diplomacy. Hoover was a member of the Versailles peace delegation and the other two have been conspicuous figures in international affairs as secretaries of state.

Hoover Due Tomorrow

The appointment with Bryan like those with Hoover and Root was made at Senator Harding's request. Since the league of nations discussion began there has been much talk about the Bryan arbitration treaties as a possible basis for international unity of a broader scope and it is understood that for one thing the president-elect is anxious to hear first-hand about negotiations from which these facts resulted. Bryan's advice is expected to be interesting in view of his active effort to secure ratification of the Versailles treaty with Republican reservations.

Root's experience as secretary of state has been buttressed by several weeks of consultation with leading statesmen of Europe formulating a world court under the Versailles league. Provision for some such court has been favored by Harding as part of an international peace covenant and the work done is expected to be one of the principal subjects of his talk with Root.

The meeting tomorrow between Senator Harding and Hoover will be their second since Harding was nominated. Hoover was one of the first to be consulted by the senator after the Chicago convention and it is understood that the league issue was

Be a Repeater

A FEW years ago a famous African explorer was suddenly stricken with a deadly jungle fever. After many weeks of careful nursing the fever left him and he recovered completely, WITH THE EXCEPTION OF HIS MEMORY. He didn't even remember his own name. His past life was hazy and confused; just one continual tangle, until one day he saw a leopard-skin rug.

That leopard-skin rug turned the trick. Wild animals had always been uppermost in his mind and simply seeing the skin of one roused his deadened senses. His old interests were renewed.

Practically the same thing happens to the minds of the public, unless you keep yourself constantly before their eyes. They forget almost completely who and what you are. Your service and place of business become things of the past. Their minds need a powerful stimulant to bring you back into their memories; to renew their interest in you.

What is this stimulant? What is its name? Here it is. Its name is ADVERTISING—the most powerful stimulant in the business world today.

If you desire to give good service and do give good service, tell everybody within reach about it. But don't stop there. If you do, they'll forget it just as sure as the sun shines.

Be a repeater. Don't let them forget. Advertise every day, year in and year out. Display your name every chance you have. Set aside a certain amount for that purpose and stick to it, regardless of what happens.

"Keeping everlastingly at it" will repay you many times over. Constant repetition makes a "habit." Make advertising one of your "habits" and it won't be long before everyone in your vicinity will have the "habit" of coming to your place of business. They won't forget you.

(The above editorial appeared in "The Connector," the monthly house organ of the Willard Storage Battery Co., and is straight-forward and to the point.)
